Skills

Languages: C#, C++, C, Java, Python, HTML, JavaScript.

Frameworks & Libraries: ASP.NET Core, Bootstrap, Tailwind CSS, CSS, Pandas, NumPy.

Databases & Cloud: Microsoft SQL Server, MySQL, Firebase.

Tools & Platforms: Visual Studio, GitHub(Code Analysis), Swagger, Postman, Unity.

Experience

Brain Station 23

Jan 2025 - Apr 2025

Participant, Geeky Solutions Learnathon 3.0

- Played a pivotal role in Team Binary Brains' victory at the .NET Stack Championship by architecting and developing Amar Tech, a robust and scalable e-commerce platform.
- Worked closely with team members to deepen expertise in .NET technologies, with a focus on building job-ready web applications using .NET Core MVC.
- Contributed to enhancing code maintainability and quality by applying Clean Architecture practices and helping the team achieve over 90% unit test coverage.

Academic Project

- **Amar Tech: Ecommerce Website (ASP.NET Core MVC)** Jan 2025 – Apr 2025
 - Designed and developed a modular Ecommerce System using ASP.NET Core MVC, leveraging Clean Architecture to clearly separate concerns across domain, application, infrastructure, and presentation layers.
 - Utilized Entity Framework Core with the repository and service layer patterns to implement scalable data access and maintainable business logic, supported by dependency injection.

GitHub Repository: [Amar Tech on GitHub](#)

- **Inventory Management System (ASP.NET Core – Razor Pages)** Jan 2026 – Mar 2026
 - Built an Inventory Management System with modules like Products, Categories, Suppliers, Purchase & Sales Orders.
 - Implemented CRUD operations using Razor Pages and managed business logic with Service & Repository patterns.
 - Used Entity Framework Core for database operations and developed stock tracking (in/out) functionality.

GitHub Repository: [Inventory Management](#)

- **E-Commerce Admin Panel (ASP.NET Core .NET 8)** Jan 2026 – Jan 2026
 - Built an Admin Panel with Product and Category modules, implementing full CRUD operations.
 - Used n-tier architecture, Repository pattern, and Entity Framework Core with MSSQL.
 - Fixed bugs from existing e-commerce source and ensured database migration functionality.

GitHub Repository: [E-Commerce Admin Panel](#)

Achievements

- Secured **1st place** in the "Full Stack Web Development with ASP.NET Core" course, excelling in assignments (99.5%), quiz (98.5%), and live test (100%). [\[View Certificate\]](#)
- Ranked **6th** out of 80 participants in the BUBT Inter-University Programming Contest 2022, organized by Bangladesh University of Business and Technology (BUBT). [\[View Certificate\]](#)

Education

Bangladesh University of Business and Technology (BUBT)

Dec 2021 - Dec-2025

B.Sc. in Computer Science and Engineering

Object-Oriented Programming, Database Systems, Data Structures and Algorithms, Discrete Mathematics, Operating Systems, Computer Networks, System Analysis and Design, Advanced Programming.
